Kentucky  
Equine  
Research®

Dr Clarissa Brown-Douglas, KER Nutritionist, is presenting the most effective way to feed your broodmares during the breeding season to get the best return on your investment.

The talk will cover a full breeding cycle from pregnant mare right through to yearling sales.

Dr Brown-Douglas has been involved with Kentucky Equine Research for more than 6 years and brings a wealth of knowledge on equine nutrition.

Don't miss out on this incredible opportunity to get a free advice from world's leading equine research body.
